WHICH CAMERA SYSTEM DO I NEED?

If you're looking for a ruggedized camera system that can withstand anything and everything you can throw at it, then you're in the right place.

AgCam

The AgCam camera system is the most durable, dependable and user friendly camera system available to the agricultural, industrial, and public works market today.

EnduraCam

The EnduraCam camera system is our AgCam camera system taken to a whole new level. It features the same construction, reliability and durability, with a little extra that makes it suitable for the most rugged of environments including military and construction.

OverView

The OverView rear view camera monitoring system is the latest addition to Dakota Micro's full line of backup camera products. As our entry level camera system, OverView offers quality construction, versatility, and an impressive list of features with an affordable price tag. Plus, it is brought to you by Dakota Micro, the leaders in industrial camera technology.

When you add in the wide variety of adaptor cables that allow you to hook up to nearly any third party monitor available, the Dakota Micro product line is the right product at the right price.

WHY DO PEOPLE LOVE AGCAM?

The AgCam system has been designed and manufactured to give you a product that will last for years, even in the harshest environments. With cameras that are 100% waterproof, 10G shock and vibration certified and feature an unmatched 3 year warranty, there is no better camera for use in even the toughest situations. With most electronics being imported from overseas, Dakota Micro is proud to manufacture the AgCam and EnduraCam cameras in the USA.

OVERVIEW WIRED KITS AND WIRELESS EXPANSION

OverView 7 inch monitors are available with or without a built in quad processor. 7 inch OverView monitors with a built in quad processor allows for the viewing of 4 cameras simultaneously. All monitors include individual camera triggers, allowing users to activate cameras with a pre-determined event, like backing up. You can also easily make any camera wireless with our wireless expansion kit.
